DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group II, claims 1-17, in the reply filed on 11/14/05 is acknowledged.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 18-20.

This application is in condition for allowance except for the presence of claims 18-20 to an invention non-elected without traverse. Accordingly, claims 18-20 have been cancelled.

Allowable Subject Matter

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing all of the elements of claim 1 in combination with a gate electrode formed in contact with the gate dielectric film at the side surfaces of the trench, surfaces of the gate electrode that are opposite to the surfaces contacting the gate dielectric film and the gate dielectric film at a bottom of the trench forming a hollow portion extending from the bottom to an opening side of the trench (i.e. the hollow portion extends from the top of the trench to the dielectric film formed on the bottom of the trench). Therefore, independent claim 1 is deemed allowable along with its dependent claims 2-17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
